PREWAR QUALITY — PREWAR PRICE

Eat All You Can and Can All You Can't Eat

Save dry shell beans, too, and use cans and jars for other vegetables

(13) Dixie Butterpea Lima,

Insure Plenty . . . by Planting . . .

More Beans in Your Fall Victory Garden

With a very high Vitamin A and B1 content snap beans add real zest to our fall meals and the surplus may be canned to advantage for winter health returns and definite savings in the family budget.

Full descriptions of the varieties listed below are given in our general spring seed book. Most bush varieties are familiar and may be planted until September in the central part of the South with later plantings of bush and pole types in the lower South. A pound plants 50-100 feet of row, enough for the average family.

Hastings' Giant Southern Asparagus

2 MARY WASHINGTON. Largest, finest, tenderest of all and rust-resistant. Mary Washington strain. Packet, 10c. Oz., 25c. 1/4 Lb., 75c.

MARY WASHINGTON ROOTS. Hastings' grown; roots delivered when dug after frost, about December 1st. Order now. 50 Roots, \$2.00. 100 Roots, \$3.50. Postpaid.

(6) Hastings Stringless Green Pod

Dry Weather Resistant Baby Lima Beans

These baby bush limas make ideal crops for summer plantings for their productive ability even under adverse weather conditions. They make delicious butter beans to cook fresh, to can, or to save as dry shell beans—truly all purpose—and will bear until frost.

7 Henderson's Bush Lima—1/4 Lb., 15c. 1/2 Lb., 25c. Lb., 45c.
2 Lbs., 80c. 5 Lbs., \$1.75. 10 Lbs., \$3.25. Postpaid.
13 Dixie Butterpea Bush Lima. 1/4 Lb., 25c. Postpaid.

Hastings' Best 4 Fall Bean Collection, 45c

For customers with small gardens, a leading variety of each type—1/4 Lb. each of Hastings' Tendergreen Stringless, Surecrop Stringless Wax, Henderson Bush Lima and McCaslan Pole Beans. Henderson and McCaslan make white dry shell beans, too. These 4 for 45c. Postpaid to you. (Value, 60c.)

(45) *Hastings' Improved Blood Turnip Beet*

Mineralize Your Garden with *Esminel*

**Thousands of Pounds
Sold This Spring**

We regret to admit that many of our Southern soils are seriously deficient in from a few to most of the essential mineral elements such that our food and feed crops produce less than they otherwise would, and they are deficient in their maximum Vitamin content.

Turnips with black streaks in the flesh are deficient in boron. Beets, Carrots, Cabbage, Collards, etc., showing poor quality, are lacking in other essential elements.

Esminel supplies ALL these minor elements and a five pound package will mineralize a 5,000 square foot garden for a full year. It supplements ordinary commercial fertilizer and sells for \$1.25, Postpaid. Get the most from your garden. Order Esminel with your seed supply. Five pound package, \$1.25.

PLANT *Fresh SEED* — SAVE FOR VICTORY — ORDER *Direct FROM HASTINGS*

[5]

You Can Grow Your Own Cabbage This Fall!

Start Seed Early to Mature Before Hard Freezes

(120) *Hastings' Genuine Surehead Cabbage*

Better Strains for Southern Gardens

The hardiest cabbages are (106) Early Jersey Wakefield and our (105) Long Island (Improved Charleston) Wakefield. They both are favorites throughout the South. (118) Copenhagen Market matures quickly and is the best small round head while (125) Stein's, (120) Surehead and (110) Centennial are huge later sorts that really make you proud of your garden's performances.

CULTURE—Sow seed in drills 6 inches apart across the bed, dropping the seed 5 to 6 to the inch. Firm the soil after covering and then water the bed thoroughly. Keep beds moist but not soaking wet. Seed germinates in 3 to 8 days, according to weather. Keep young plants growing steadily from the start. When plants have made the fourth pair of leaves transplant to open ground. 1 Oz. of seed usually makes at least 1,000 good strong plants. Sow $\frac{1}{2}$ to $\frac{3}{4}$ Lb. for plants to set one acre.

SPECIAL NOTICE

A very critical situation continues in good cabbage seed. Some questionable supplies grown from stumps of shipping crops are being offered. We offer only our regular select seed cabbage, grown in the good, dependable way. Don't take chances.

(106) *Extra Early Jersey Wakefield*

Fall Cabbage Collection for Only 35c

Our big 4 finest varieties. Popular favorites for an all-season supply—early, medium and late maturing. And seed left over from fall planting will be fine for spring planting.

Copenhagen Market, Hastings' Famous Long Island Wakefield, Stein's Early Dwarf Flat Dutch and Hastings' Centennial Late Flat Dutch. The best varieties and our super-strains for Southern growing. One packet each of these big 4—35c postpaid. Order yours now!

Frost-Proof Cabbage Plants for Winter Planting

Plants Positively Will Not Be Shipped Before Early December. Hastings' almost freeze-proof plants are well known throughout the South. We expect to have these plants in any quantity desired beginning about December 1st. We will have the Improved Charleston Wakefield and Early Flat Dutch cabbage plants. You may send your order in now for earliest delivery. Shipments made after about December 1st.

Improved Charleston Wakefield Cabbage Plants
Early Flat Dutch Cabbage Plants

100 Plants for 75c. 500 Plants for \$2.50.

Prices are for each separate variety, postpaid.

Now is the Time to Plant
the Best Winter Hardy—

Fall Collards...

Contains Vitamins A, B₁

Natural Vitamins Are
Your Best Winter
Health Insurance

• Fall Garden Meals Build Winter Resistance to colds. We are very lucky in being able to have such good fall gardens with so many different Vitamin fresh vegetables to grow. They give us strong bodies to help in the fight against colds, flu and pneumonia that threaten us each winter. High Resistance is our best insurance against doctor and medicine bills. Rich garden greens bring a wealth of Vitamins when they are fresh from your own garden. Store bought vegetables have lost much of their Vitamin value so plant yours right away for the greatest dividends. Sow seed of these vegetables until September 15 in the central South—later in the lower South—transplanting or thinning as necessary. Plan your fall garden now with Hastings' pretested, dated and acclimated seed—the best for Southern Gardens.

(57) Green Sprouting Broccoli
The Easily Grown Green Cauliflower

(136) Georgia Cabbage Collard

Old-time Southern favorite for boiling. Sow seed Until September 15th. Transplant 2 ft. apart in rows. Cultivate like cabbage. Oz. plants 200 feet.

135 SOUTHERN OR GEORGIA

The standby, enduring ordinary winters south of Atlanta. Hardier and easier to grow than cabbage. Pkt., 5c. Oz., 10c. ¼ Lb., 20c. Lb., 60c. Postpaid.

136 Hastings' Georgia Cabbage-Collard

(Newest Improved Strain)

Hastings' introduction of Georgia origin. The genuine strain from original stock seed. Loose heading but many have real heads to use through the winter. Much superior flavor for boiling or in cole slaw. Pkt., 15c. Crop very short. Order early.

Crisp, Tender Lettuce

LETTUCE IS RICH
IN VITAMINS A, B1

. . . a vital fall garden favorite

Rich in Vitamins A and B1, fresh, crisp lettuce is undoubtedly the most popular salad vegetable in the entire country. Iceberg and Drumhead are superb garden and market favorites and the new All-America Winner—Great Lakes—is a new development to resist heat and disease. They all do best planted late for cool weather maturity. Black Seeded Simpson is the old garden lettuce without heads and is deliciously tender and crisp and rich in Vitamin A. Bibb is the new sensation for individual salads!

The World's Cheapest Hardy Greens

400 DWARF ESSEX RAPEGREENS

Description—Rapegreens look much like Rutabaga Turnips but do not form a bulbous root. It grows 15 to 30 in. high, making a splendid green feed and forage crop relished by all. It is popular for "greens" on the table and is a fine substitute for turnip or spinach greens.

PRICES—1/4 Lb., 15c. Lb., 45c. 5 Lbs., \$1.75. 10 Lbs., \$3.25. Postpaid.

Hardy Onions are the perfect Southern Winter Garden Vegetable

They are hardy and healthful and the Bermudas are particularly mild and delicious.

Plant seeds in late summer and early fall, thinning and eating the green onions to leave a stand. When tops die naturally the mature onions are dug and stored in a cool, dry, ventilated place, spread thinly.

(289) *Crystal Wax White Bermuda*
Mildest of All

If you hurry . . . there's still
time to grow a fall crop of

Tomatoes

in your garden!

Plant seed of tomatoes for a fall crop immediately (except in upper cotton belt) while there is time to mature a crop before frost. We recommend the earliest varieties except for the lower South where more time is available. **Scarlet Dawn** matures quickly and abundantly for Victory Garden Savings in fall as well as in spring. Your government recommends tomatoes as one of the most necessary garden crops that you can grow, the best source of Vitamin C. A dime packet can make enough plants for the average family planting!

We have a Big Supply!

Hardy Southern

Turnips

For boiled dinners on frosty days

Plant Lots of Them at These
Low Prices

CULTURE. Sow Rutabagas from July, other turnips 30-60 days later in well prepared ground. One ounce plants 200 foot row. Use 3 Lbs. for acre.

Hastings' Big 7 Turnip Collection

Yes, we are very fortunate in having a plentiful supply of extra choice turnip seed for the first time in several years and can offer our good old Big 7 at good old Bargain prices. Seven full ounces, seven choice varieties for a full season of fine fall and winter boiled dinners, all for 35c. Postpaid. If your requirements are greater, we will supply 7 quarter-pound packages of the same fine varieties for \$1.15. Postpaid. Send immediately as turnip planting time is here. Now is the best time.

478 Hastings' New Shogoin Turnip

Best all-purpose turnip in existence. It resists plant lice unlike any other, it has a heavy crop of leaves, 18-20 in. high and holds them up off the ground. Its roots are globe-shaped, medium sized, all white, sweeter, milder, and of better flavor. Plant Shogoin. Pkt., 5c. Oz., 10c. 1/4 Lb., 25c. Lb., 75c. 5 Lbs., \$3.00. Postpaid.

466 EARLY RED OR PURPLE TOP

46 days. 3-5 in. Purple Top Strap Leaf. Early flat turnip. Quick grower, fine-grained, sweet flavor. Most popular early. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 60c. 5 Lbs., \$2.50. Postpaid.

467 EARLY WHITE FLAT DUTCH

46 days. 3-5 in. Similar to Purple Top except skin is pure white and very small tap root. Medium sized, quick grower. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 60c. 5 Lbs., \$2.50. Postpaid.

476 EXTRA EARLY WHITE EGG

57 days. 2 1/4 x 3 1/4 in. Finest flavored skin and flesh snow white, solid, fine grained, sweet, bunches well and a good seller. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 60c. 5 Lbs., \$2.50. Postpaid.

479 HASTINGS' MIXED TURNIPS

Our mixture of all turnips and rutabagas for a full season's supply, of many kinds, from one planting. Balanced formula mixture for greens and roots of early, medium and late maturing sorts for a continual supply. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 60c. 5 Lbs., \$2.50. Postpaid.

465 EXTRA EARLY MILAN

42 days. 3-4 in. wide. Earliest, flat purple topped turnip. Sweet, fine grained flesh. Pkt., 5c. Oz., 15c. 1/4 Lb., 35c. Postpaid.

(475) Hastings' Famous Purple Top Globe
(Extra Fancy Strain)

475 PURPLE TOP GLOBE (EXTRA FANCY)

57 days. 4-6 in. Our most popular turnip. Handsome, large globe shaped heavy cropper all over the South. Always good quality, good keeper and grand seller. Plant lots of them for home use and market. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 60c. 5 Lbs., \$2.50. Postpaid.

The Winter Favorite . . . Very Hardy 477 Seven Top Salad Turnip

The salad variety planted everywhere in the South for greens. Roots are tough and not for the table, but tops are produced in abundance and are very tender and succulent. Also used for feed, but homes and nearby markets are glad to have fresh turnip salad at all times. Very hardy. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 60c. 5 Lbs., \$2.50. Postpaid.

470 LONG WHITE COWHORN

70 days. 2 3/4 x 12 in. Roots long, carrot-shaped. 1/3 of root above ground for easy pulling. Resists drought and cold. Flesh pure white, fine-grained, sweet and of excellent table quality. It is also often planted with rape for stock food. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 60c. 5 Lbs., \$2.50. Postpaid.

469 YELLOW OR AMBER GLOBE

Yellow Stone. 76 days. 5-7 in. Best all-round yellow turnip. Globe-shaped light yellow skin and flesh. Fine-grained, sweet, a good keeper and big cropper. Tops are large and cut-leave. Real table quality but also used for stock. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 60c. 5 Lbs., \$2.50. Postpaid.

Turnips Contain Health Vitamins A and B₁

468 Hastings' Improved American Rutabaga

88 days. 5-7 in. Heaviest cropper of all rutabagas for the South. Rich, uniform, purple colored top and light yellow flesh; tender and sweet. For table use, storage and stock feed. Pkt., 5c. Oz., 10c. 1/4 Lb., 20c. Lb., 60c. 5 Lbs., \$2.50. Postpaid.

Produce Your Fertilizer at Home . . .

(500) *Alfalfa for the Upper South*

The great improvement of Southern Soils during the past 25 years has been due principally to the use of the wonderful qualities of the various legume crops such as Austrian Winter Peas, Vetch, Blue Lupines, hardy Lespedeza, Alfalfa and the several kinds of clover. These crops all grow well during the winter season when otherwise the land is bare, subject to the gullying and heavy washing or erosion effects of the winter rains. They take Nitrogen from the air and plant it in the soil, permanently improving its productivity.

With such a wide selection it is perhaps difficult to choose the best ones for your farm. It is our suggestion that you consult your local county agricultural agent who is in the best position to advise you, and to follow his advice. Be sure to inoculate seed for best results.

New Sanford Wheat

Are You Missing the Best Wheat of All? The South Swings Overwhelmingly to **SANFORD**

Georgia Planting Over 60% of Entire Acreage in 1944-45
Suited Perfectly To All Southern States

NEW SANFORD Rust-Resistant WHEAT

The following information has been released by Dr. H. P. Stuckey and Dr. R. P. Bledsoe of the Georgia Experiment Station under whose direction the variety was originated: **SANFORD WHEAT**. A new variety of wheat resistant to leaf rust and adapted to Georgia conditions is now ready for distribution to Georgia farmers. Four-year trials of this wheat have yielded 6.4 bushels more per acre than Gasta (a high-yielding

Bluestem selection).

Sanford is similar to Bluestem (Purplestraw), except for having somewhat more awns and greater resistance to leaf rust. In years in which leaf rust is prevalent, Sanford matures a few days later than Bluestem, due to its superior resistance to leaf rust.

Culture—Early fall planting is best, in early seeding, plant one bushel of seed per acre. After about November 15, it's better to use $1\frac{1}{4}$ to $1\frac{1}{2}$ bushels per acre. Plant in drills, using the "open furrow" method, the same as for Oats. Easily grown in the South.

Hastings' Grain Pasture Mixture!

For many years we have had calls for a balanced mixture of grains and legumes properly blended and balanced for livestock grazing.

We offer you **Hastings' Grain Pasture Mixture** as the proper proportion for grazing over a long season. It contains a balance of Oats, Rye, Wheat, Barley, Vetch and Winter Peas to furnish a maximum of grazing per acre, supporting more animals per given area than almost any other combination.

Sow 100 pounds per acre broadcast and lightly harrowed into freshly prepared, reasonably good soil, from September to December, the earlier the better.

Light grazing can begin as quickly as the stand is thoroughly established and can be continued until spring without any loss of soil fertility because of the legumes and the animal droppings.

Hastings' Grain Pasture Mixture is our own special blend and cannot be purchased anywhere else.

Write for our best prices at any time after about September 1st when markets are established.

FULGRAIN EARLY OATS

Excellent for light soils farther South. The best early oat with exceedingly heavy straw. Write for our closest market prices when ready to buy.

NEW VICTORGRAIN OATS

Bred for "combine" harvesting. Straw heavy but short. Yield excellent. We recommend Victorgrain to the great mid South. Write for prices.

SPECIAL NOTICE! We are not offering our famous **Hundred Bushel Oats** this season as our newest selected strain is not yet in large enough supply to release it. Production is being increased as rapidly as possible and we do hope to have at least a limited supply of this newer, finer strain within another year. Meanwhile we appreciate your patience.

WINTER BARLEY

THE WONDER CROP

There is a great increase in barley planting, especially by stock raisers, who want it for winter green feed and grazing. Very easily grown through the South and sowed at last cotton or corn working, the only expense is the cost of seeds. All our Barley is recleaned and tested Southern grown winter barley. Broadcast 2 bushels per acre. **Beardless and Bearded**. Write for our best prices on quantity you want when ready to buy.

5% Ceresan—Prevents Smut

New Improved Ceresan—for treating grain seed to prevent bunt or smut. Costs less than 3c per bushel of seed. Lb. treats 30 bushels. Lb., 80c. 4 Lbs., \$2.70. 25 Lbs., \$15.00. 100 Lbs., \$55.00.

ABRUZZI RYE

Southern Grown. We have grown Abruzzi Rye many years and do not hesitate to say that it is as far ahead of the old Southern Rye as the Southern is ahead of Northern Rye. Abruzzi is the best Rye for the South. It stools out quicker and heavier, quickly covering the ground and protecting its roots in winter. It can be pastured a month to six weeks earlier than other Rye or Oats. Write for prices when ready to buy.

400 DWARF ESSEX RAPE

Description—Rape top growth looks much like Rutabaga Turnips but does not form a bulbous root. It grows 15 to 30 in. high, making a splendid green feed and forage crop relished by all kinds of stock, but principally planted for hogs and poultry. It is also popular for "greens" on the table and is a delicious variation from turnip or spinach greens.

Culture—Plant any time from August to April. 10 pounds broadcast or 3 to 4 pounds per acre if planted in drills like turnips.

PRICES— $\frac{1}{4}$ Lb., 15c. Lb., 45c. 5 Lbs., \$1.75. 10 Lbs., \$3.25. Postpaid.

Making a Hastings' Lawn

550 HASTINGS' EVERGREEN MIXTURE

LAWN GRASS MIXTURE—FOR UPPER SOUTH

Our finest, most satisfactory lawn grass for the upper South. It stays Evergreen the year round in properly prepared soil and watered thoroughly during the summer. It grows off quickly, has a rich green color, fine texture, is slightly creeping, smooth and velvety. It really makes a luxuriant green carpet and years of experience have proven this, our own formula blend, to be the best of all mixtures for the South.

In the lower South, it makes the finest textured fall, winter and spring lawn. It is the best also to plant on Bermuda sod each fall for winter grass. Our own special formula mixture. You can get it only direct from Hastings. Lb., 65c. 5 Lbs., \$3.00. 10 Lbs., \$5.75. Postpaid.

533 KENTUCKY BLUE GRASS. Best rich green lawn and sweetest pasture grass for upper South and North. Slightly spreading, narrow leaves. Evergreen if kept moist in summer. Fancy re-cleaned seed for finest lawns. Lb., 65c. 5 Lbs., \$3.00. Write for lowest quantity prices.

532 HASTINGS' SPECIAL WINTER RYE GRASS

The easiest way to keep up the yard's appearance in war time.

AMERICAN GROWN COMMON. The Winter Grass for all the South. Scratch seed in Bermuda sod each fall for a year-round green lawn. It lasts until the Bermuda comes out again in summer. By itself it makes a delightful green lawn, in sun or shade, all fall, winter and spring. It stands repeated mowing. Sow 10 Lbs. per 1,000 sq. ft. (50x20 ft.) for lawn; 50 Lbs. per acre for pasture to graze all winter and spring.

Hastings' Fancy Seed—Lb., 30c. 5 Lbs., \$1.25. 10 Lbs., \$2.25. Postpaid.

546 TIMOTHY. Inexpensive temporary grass. For upper South and North. Lb. 35c.

545 RED TOP. Slightly creeping; best on stiff, moist land. Sow 15 Lbs. per acre for pasture. Lb., 45c. 5 Lbs., \$2.00.

553 CARPET GRASS. Ideal for shady lawns and sandy or moist pastures in lower South. Write for prices in October.

531 BERMUDA GRASS (Hulled)

Again available with the government having completed its tremendous program of building tough sodded air and drill fields with most supplies of the past several seasons. It can be a hardy, tough lawn and pasture grass for you as well and can be seeded until September in mid South and later in lower South if you insist upon the hulled type. 2 pounds seed 1,000 sq. ft. lawn. Use 10 Lbs. per acre for pasture. Lb., \$1.25.

509 WHITE DUTCH CLOVER

Often used in lawns because of its ease of growth and thriftiness under most southern conditions. Can be planted separately or with grasses to make a lovely lawn. True perennial coming back year after year spreading and stands close mowing. Sow 1 to 2 pounds per 1,000 square feet for lawn, 12 pounds per acre in pastures. 1 Lb., \$1.25. 5 Lbs., \$5.75. Postpaid.

555 HASTINGS' SHADY LAWN GRASS

UPPER SOUTH MIXTURE—For shady places in the upper half of the cotton belt and farther north. It makes a wonderful winter and spring grass carpet and stands hot, dry summers in shady places better than other grasses. This is our famous Evergreen Mixture with the addition of Fescue and Creeping Bent Grasses, the best grasses known for shady places. Lb., 70c. 5 Lbs., \$3.25. 10 Lbs., \$6.25. Postpaid.

535 CHEWINGS' FESCUE. A superb grass for acid soils or shaded locations where it is difficult for other types to grow. Best on good soil, however. Lb., \$1.25.

ZOYSIA MATRELLA

Manila Grass (Sod Only)

The new wonder or miracle grass for shady places in all the South. Also grows in full sun. Requires rich soil and good care until established. Grows from root or sod divisions as no seed are available. Send for free Zoysia bulletin complete with actual photographs, description and cultural information. 1 square yard sod sets 400 square feet of well prepared lawn. (Does not make seed.) Price: \$5.50 per sq. yd. f.o.b. Atlanta. Shipments must be made by highway or railway express to insure quick delivery.

(8090) *Hastings' Exhibition Mixed Pansies*

World's Finest Pansy Seed

Hastings' fresh seed selected from the finest individually flowered plants grown in rich, well prepared, well drained soil gives the expert and the beginner alike the requirements for the most interesting and beautifully marked, really immense pansies in the world. You can grow such only with such seed as offered on this page, shipped directly to you quickly as we certainly can do.

Super Giant Collection, \$1.95

SPECIAL—One Packet Each of Hastings' Roggli Mixed and the finest new Swiss Giants—Alpenglow, Lake of Thun, Coronation Gold and Swiss White—\$3.25 worth of the greatest Pansies in existence for just \$1.95 (Seed scarce). Now is the time to plant! Start seed early.

Fresh PANSY Seed

CULTURE—Prepare bed deeply and well. Soil with leaf mold, peat moss and decayed cow manure gives best results. Seeds germinate in about 10 days and must not dry out during this period; coating with peat moss over the bed prevents drying out. Thin out or transplant to six inches apart in rows and cultivate frequently. During dry weather, water bed daily. July to September, January to March are the best times to plant, allowing plants to develop in vigorous condition. They need only light protection to stand our winters.

ROGGLI SWISS GIANT PANSIES

The Roggli Swiss Giant Pansies are undoubtedly the finest developments in individual color varieties in pansy history and most authorities agree as to their superiority. We of the Hastings' group have thoroughly tested them here in the South and we find that they are beautifully acclimated. We recommend them to you.

8080 Mixed.
8082 Alpenglow. Rich red.
8084 Lake of Thun. Deep blue.
8088 Swiss White.
8073 Coronation Gold.

Sensational New Double Hardy LARKSPUR HA.

to Plant in
the Fall

(7270) *Giant Imperial Double Larkspur*

Plant November to March in fresh beds for finest and showiest spikes in spring. For most double flowers buy fresh, selected seed each year, saved from double flowers. Seeds germinate much better if frozen a few days in refrigerator before planting. Scatter seed lightly over bed surface and thin to a stand.

GIANT IMPERIAL TYPE—4 ft. tall. Newest type, base-branching, tall Larkspurs with giant double flowers and spikes on uniformly longest stems for cutting—the florists' delight.

PLANT Fresh Seed — SAVE FOR VICTORY — ORDER Direct FROM HASTINGS

New Giant Dixie Sweet Peas

Sweetest Cut Flowers for
Pleasure and Profit

PLANT AFTER WEATHER COOLS

Experts' opinions declare that these varieties are the very best of each color in existence. When a better one in any color shade is created, out goes the older one. You expect the best from Hastings and here they are for the new 1945-46 season. For largest flowers start early in good soil worked deep. Planting in double rows about 8 inches apart, conserves wire supports. Directions are on packets. **Ounce plants 50 ft. of single row.** Inoculate all sweet peas with Nitragen. Garden size, 10c.

Giant New Dixie Spencers

Finest type, largest flowers. For outdoor fall planting in lower South, November to March in upper South, to bloom before hot weather.

Early Flowering Sweet Peas

Especially for greenhouse culture and outdoor fall planting in the lower South. They bloom earlier than regular Spencer Sweet Peas and almost as freely. Best for growing in Florida where late Giant Spencers fail to bloom.

Early Flowering Sweet Pea

★Collection Offer—65c

As suggested inside cover. Same colors, in six Early Flowering varieties—One packet each of Florist Blue, Grenadier Cascade, Memory, Shirley Temple and Ball's Orange. Finest color assortment, finest of all early Sweet Peas, best for fall and winter planting in Florida, the lower South and for greenhouse culture everywhere.

Special—90c worth—for only 65c.

1 full ounce each (\$3.00 value) for \$2.00.

★9206 FLORISTS' BLUE. Clear blue. Delightful effect and best of newest blues.

★9212 GRENADIER. Fiery Scarlet. New striking beauty; large wavy petals.

★9214 CASCADE. White. Sensational new white, now so fashionable.

★9216 MEMORY. Lavender. Glorious giant flowers for all purposes; extra choice.

★9226 SHIRLEY TEMPLE. Soft rose-pink. Daintily frilled; considered finest of all new sensational varieties.

★9235 BALL'S ORANGE. Large, clear, deep glowing orange flowers. Fine stems. Price Each — Packet, 15c. Oz., 50c. 1/4 Lb., \$1.35. Lb., \$5.00.

9200 HASTINGS' EARLY FLOWERING CHOICE MIXED SWEET PEAS. FLORISTS' STRAINS. Pkt., 10c. Oz., 25c. 1/4 Lb., 75c. Lb., \$2.50.

These Late Spencers not suited for Florida.

9240 HASTINGS' MIXED LATE GIANT SPENCER SWEET PEAS

Choicest Varieties—Formula Mixed.

Our glorious color harmony blend of the largest and finest Giant Spencer Sweet Peas. This grand assortment includes the varieties below, finest of their colors in existence, other standard varieties of teal merit and several great novelties about ready for introduction.

Grow Better Flowers

As our knowledge of horticulture develops from our close association with mother nature in our gardens, the more we realize how very necessary it is for us to understand the fairly simple requirements in successfully growing beautiful flowers.

These living, growing plants must have desirable beds in which to thrive and such are made by adding up to 25 per cent, in bulk, of humus to the upper 12-18 inches of soil. This is the primary feeding area. This humus helps hold both food and moisture so necessary at all times for good success.

Pompons or Baby Zinnias

For Your Perennial Garden . . .

(READY IN LATE OCTOBER)

Gorgeous Peonies

•Magnificent Peonies are being very successfully grown in most all sections of the South except in Florida and in the light, sandy soils of the Atlantic and Gulf coastal regions. Try them in your garden. Plant Peonies in fairly rich but well drained soils with exposure to only the early morning sun in the deeper South. Set roots barely under soil surface. Feed with bone meal. Never use manure except Wizard Sheep Manure which has been heat treated.

MME. JULES DESSERT. Flesh Pink. Large semi-rose type. Delicate flesh shading to paler tones. 60c each. 3 for \$1.50.

OFFICINALIS RUBRA. Crimson Red. Richest crimson red, double and blooms very early. Quite vigorous. 75c each. 3 for \$2.00.

★**FELIX CROUSSE.** 8.4. Red. Bomb type clear brilliant red. Prominent guard petals. Strong grower. 60c. 3 for \$1.50.

★**FESTIVA MAXIMA.** 9.3. White. Paper white, crimson center markings. Very large and best Southern variety. 60c. 3 for \$1.50.

The New Nursery Sensation!

Owen's **NEVERMISS** Scuppernon

PLANT PATENT APPLIED FOR
ALL RIGHTS RESERVED

OFFERED FOR THE FIRST TIME

Owen's Nevermiss
Scuppernon

Truly the first outstanding advance in Scuppernon development in nursery history Owen's Nevermiss (sold exclusively by Hastings) is larger, sweeter AND MORE REGULAR BEARING, than the old Scuppernon which it will undoubtedly supersede within a few years' time.

First discovered 11 years ago in Middle Georgia it has been under observation test and multiplication since that time.

Without question it is the finest improvement in the old Genuine Scuppernon which has been a favorite in the South for generations, ever offered at any time.

Owen's Nevermiss Scuppernon regularly sets a crop every year and with proper pollination will yield abundant crops (with reasonable treatment) when the old type is very spotted in yield at best.

Owen's Nevermiss Scuppernon has produced abundant crops of fruit EVERY YEAR for the past nine years it has been under observation and test.

It is more prolific, the fruit more persistent, and has larger clusters of fruit than other Scuppernongs. It is very vigorous in growth.

from one to fifteen bearing vines. Male vines extra at 65c each. Postpaid.)

SEND YOUR ORDER NOW!

Vines will be shipped as soon as dormant in November, any time after which is the proper time for setting in the South.

Note!

All Owen's Nevermiss Scuppernon Vines are sold only with full agreement that they positively will not be asexually propagated and the order for one or more vines from this offering is acknowledgment by the purchaser that this contract agreement is binding upon him or her.

DIXIE BRILLIANT

New Everblooming Red Crape Myrtle

THE FINEST IN EXISTENCE

It is beyond question the finest Crape Myrtle ever grown. It is medium large, strong, vigorous, of dense, compact growth and literally covered practically all summer long with tremendous heads of richest brilliant red. The foliage is dark green, large and very showy as a shrub, even when not in bloom. It blooms the first year from even small plants. It is not patented, which means that you can make as many cuttings and grow as many new plants as you wish without any restrictions whatsoever. We are perfectly willing for everyone to enjoy this wonderful new Crape Myrtle and expect to see it glorify every section of the South within just a short time.

Genuine Dutch Bedding Hyacinths (Imported)

CULTURE: Hyacinths do best in a rich, light loam but do well in any good soil. For outdoor planting, set bedding bulbs 6 to 8 inches apart each way and cover each bulb about one and a half times its own depth.

For pot culture with these varieties the most beautiful spikes are made with only one bulb to each 5-inch pot or three or four in a larger pan. It is essential for blooming indoors that the growth be started in the dark. A frequent mistake is made by bringing the bulbs into the light too soon, resulting in a failure to bloom or weak spikes.

Potted bulbs may be entrenched or heeled in the garden and covered with six inches of ashes or gravel for moisture and to prevent frost damage. A bed of ashes should be beneath the pots, too, to keep out worms. They may also be kept dark and well watered in a cold-frame or cool cellar.

Keep them dark for 12 weeks and then keep in low temperature (about 50 degrees) for 2 weeks until top growth is well developed. Then you may force them as rapidly as you wish. You will have strong, compact spikes by keeping close to the glass or window and giving plenty of air. Plant September to December.

The Cream of the Crop

2260 ARENTINE ARENSEN—White. Snow white; spike well filled and perfect round shape. Broad wide open petals. Early.

2261 GENERAL DE WET—Pink. Fine spike.

2262 JAN BOS. Red. Striking deep red.

2263 GRAND MAITRE. Blue. Deep lavender blue with dark stem.

2310 LA VICTOIRE — Red. There is no brighter bedder. Bells are close together, forming a long, heavy, splendidly finished spike.

2320 L'INNOCENSE—White. The leading white for forcing and bedding; early.

2325 MARCONI—Deep Rose. Very bright in color, large compact truss, a splendid pot Hyacinth, blooming later than others.

2264 PINK PEARL. Rose. Rich rose with lighter edge. Lovely forcer.

PRINCE HENRY—Yellow. One of the very best for all purposes.

2850 QUEEN OF THE WHITES — Pure White. Broad, large truss, fine pure white bells, a gem for late forcing and for bedding.

2314 DUKE OF WESTMINSTER—Purplish Blue. Very large and dominating truss, dark blue with white center in each bell.

2450 YELLOW HAMMER—Creamy Yellow. The most popular yellow; early, splendid forcer. Medium sized bells forming a very compact, ball-shaped, very beautiful truss.

Postpaid Prices

Separate Varieties Hyacinths—Finest Bedding Size Bulbs—35c each. 3 for 85c. 6 for \$1.45. 12 for \$2.45. 100 for \$16.95.

Genuine Dutch Crocus

First flower to bloom in spring. Perfectly hardy and blooms for years. Crocuses planted with other bulbs will bloom and be out of the way before others make their appearance. They may be grown in pots and boxes.

Assist the Dutch People in Their Reconstruction!

Bulbs From Holland Again!

These tulips in our extra top size prewar grade are scheduled to be delivered again to us this fall. We will have less than half a normal supply, so please book your order with us immediately so we can take care of your requirements. This will materially assist the gallant Dutch people in their mighty reconstruction effort.

CULTURE: A Tulip is usually planted about 6 inches deep in average soil. In planting among perennials, in good deep soil, set bulbs deep enough to allow free cultivation, even 8 inches or more deep. Smaller bulbs, such as Grape Hyacinths, Scillas, Crocus, Snowdrops, are planted about 3 inches deep in ordinary soils or 5 inches in well-pre-

pared soil. An old thumb-rule for ordinary soil is to cover most bulbs 2-3 times their greatest thickness.

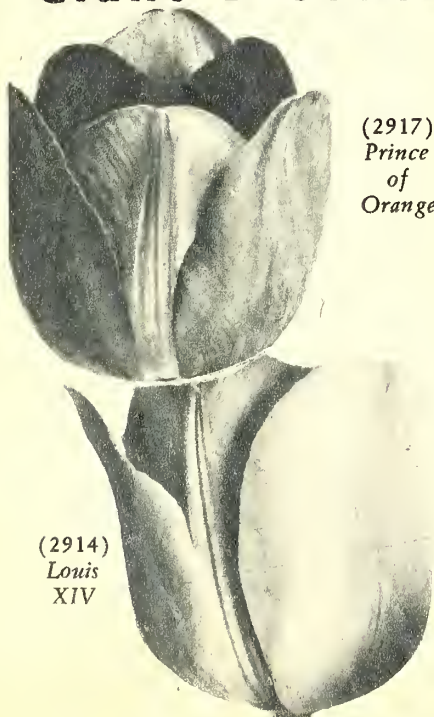

Depth of Lily planting varies. Candidum or Madonna Lily is only covered 2 to 3 inches, Regal Lily 6 to 8 inches. Lilies rooting from the stem, above bulb, are planted deeper, to 12 inches.

PREPARING BULB BEDS

You want increasingly beautiful Tulips, so it is necessary to prepare the soil deep and well. Dig out the beds at least 18-24 inches. Replace with good topsoil or mix in fibrous material, such as Peat Moss, until your soil is loose and porous. This provides easy root penetration and drainage beneath bulbs. Add 8 Lbs. bone meal or bulb fertilizer to each 100 sq. ft. bed area for ample feeding.

Giant Breeder Tulips

Mammoth Top-Size Bulbs. Plant Freely From September to December
